

TDM5 - How To create a playlist

Introduction

TDM5 offers the ability to create your own designs, these designs can be added to a playlist.

A playlist can contain pages but you can also add media from your media library or a playlist. A playlist can be linked to a player, once this has been done the player will display all content linked to the playlist.

Requirements

If you want to create a playlist you need to meet the following requirements:

- Have access to: Designer > Playlists and be able to create or edit a playlist.

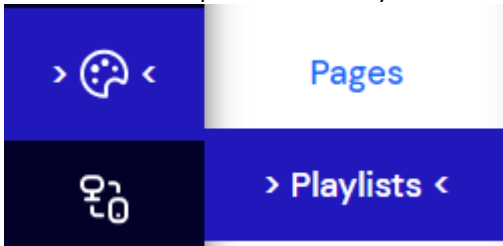

How To create a playlist

1. Login to your TDM5 environment.

2. Select “Designer”.

3. Select the menu option called “Playlists”

4. Select ‘Add new playlist’ in the top right corner.

5. Rename you playlist by selecting the edit button next to the name ‘New Playlist’

Now you have successfully created a playlist, please check our manual ‘TDM5 - How to fill a playlist with content’ for more information regarding the playlist workflow.
