

TDM5 - How To create a player group

# Introduction

TDM5 supports all kinds of devices, this can be a Sony Bravia, Philips D-Line, Samsung display or an Android/PC player. This manual explains how player groups can be created, this way you can group players to easily manage your devices.

# Requirements

If you want to create a player group you need to meet the following requirements:

- Have access to: Designer > Players

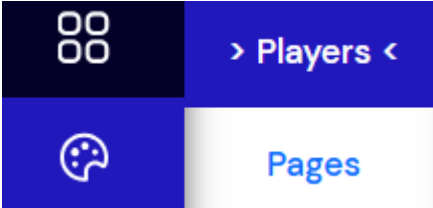

# How To create a player group

1. Login to your TDM5 environment.

2. Select “Designer”.

3. Select the menu option called “Players”.

4. Select the '+' icon next to 'Groups' to create a new player group.

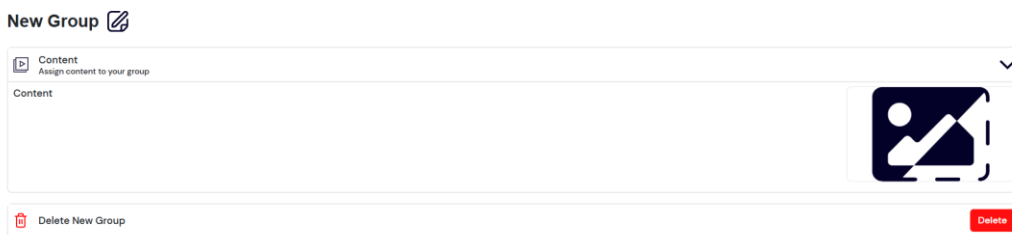

## Players ?

All players  
Ungrouped

Groups +

5. A new page will open, here you can give the group a name and specify the content which should be shown by the players in this group.

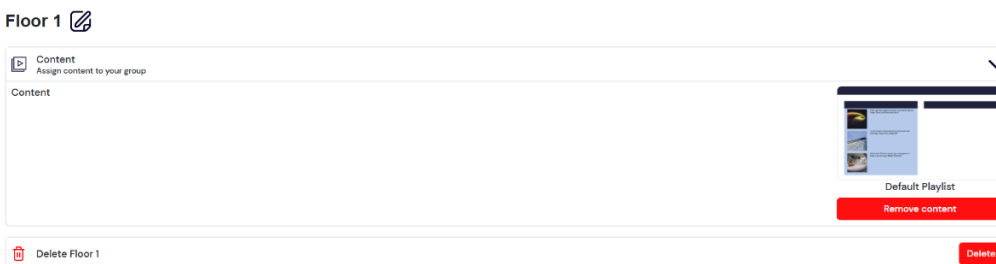

Configure your group

6. Once everything has been configured you can press 'Save' to create the player group.

Configure your group

Unsaved changes Save

Now you have successfully created a player group, see our other manuals for more information regarding how a player can be linked to a player group.
