

TDM5 - How To add a font

# Introduction

TDM5 offers the ability to create your own designs, this can be done using company colours and logo's. TDM5 also offers the ability to upload fonts. With these features you have the ability to create designs based on your corporate identity.

# Requirements

If you want to add a font you need to meet the following requirements:

- Have access to: Designer > Fonts
- Have access to the font files you want to upload

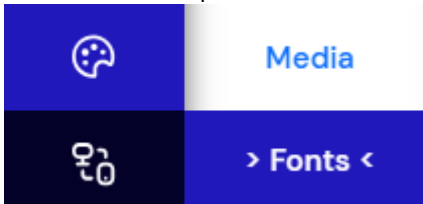

## How to add a font

1. Login to your TDM5 environment.

2. Select “Designer”.

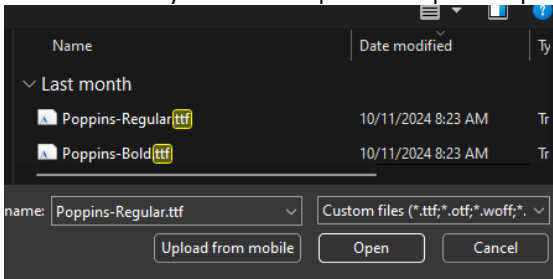

3. Select the menu option called “Fonts”.

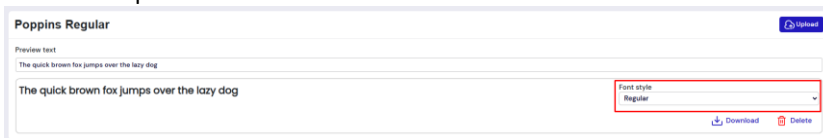

4. An overview of all available fonts will be shown. Select the ‘Upload’ button to upload a new font.

5. Select the font you want to upload and press ‘Open’.

6. A new page will open once the upload has completed. Here you can choose a specific style for the upload font in case preferred.

You can also choose ‘Upload’ again to upload different styles of the font.

7. Once you have finished this step you have successfully added font to TDM5. It is now possible to use the font within your design.
