

TDM5 - How To unlink OneDrive

Introduction

TDM5 offers the ability to create your own designs, this can be done using your own media files like logo's and other company information. There are a few different methods which can be used to access your media files, these options are: the TDM5 build-in storage, OneDrive, Dropbox and Google Drive.

This article will explain how to unlink OneDrive.

Requirements

If you want to unlink OneDrive in your TDM environment you need to meet the following requirements:

- Have access to: Designer > Media
- Have a linked OneDrive account as media storage

How to unlink OneDrive

1. Login to your TDM5 environment.

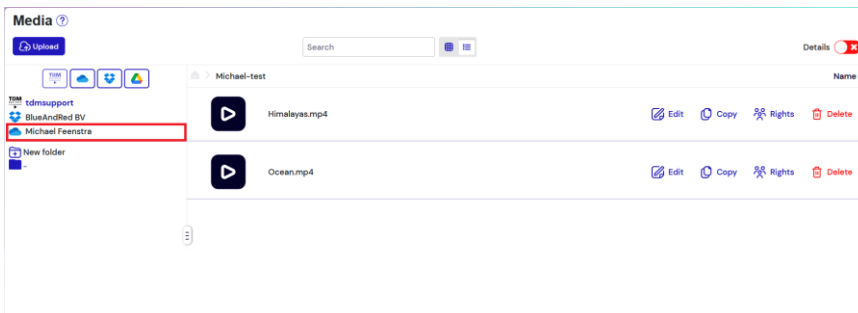

2. Select “Designer”.

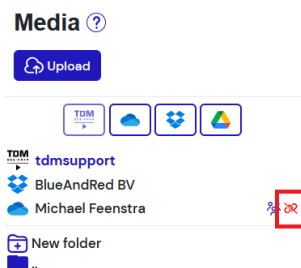

3. Select the menu option called “Media”.

4. An overview of the media library will be shown, directories are shown on the left side. Use the mouse to hover over the OneDrive folder.

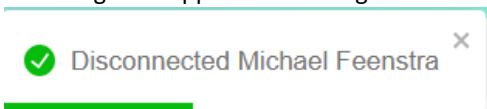

5. Select the red “Unlink” button.

6. A pop-up will appear confirming of the want to disconnect from OneDrive, select “Confirm”.

7. A message will appear confirming that OneDrive is disconnected.

After this your OneDrive account has been successfully unlinked.
