New features

Below an overview of the new features which are part of TDM5.3:

Item:	Function description:
PowerBI - Shared workspaces	We have improved the PowerBI connection in TDM5. With this improvement it is now possible to display shared workspaces into your presentation.
NU.nl widget	With the NU.nl Widget you can add one element to your design, and instantly have a full layout showing the latest news with a title, description and associated image.
NOS widget	With the NOS Widget you can add one element to your design, and instantly have a full layout showing the latest news with a title, description and associated image.
Buienradar widget	With the Buienradar Widget you can add one element to your design, and instantly have a full layout showing the latest weather with a radar image.
LinkedIn integration	With the new LinkedIn integration you will be able to directly link your business social media account to your content.
LG webOS support	With the new LG WebOS support, you are now able to directly add your LG Signage Displays to TDM5 and show your content without any additional hardware.
Room Booking	With the new Roombooking module you will be able to add roombooking devices to TDM5, and show booking information in your own personal designs.

Precautions and restrictions

Below an overview of the precautions and restrictions of TDM5.3:

Component:	Description:	Status:
TDM5 webOS Player	To display Power BI data on an LG Signage device, the minimum requirement for this is webOS TV 23 (7.5).	Device limitation
SharePoint integration	Displaying custom images is only possible when the user is logged in at the device. This item is currently being looked at by our development team.	Will be solved in the next patch
LinkedIn integration	Our LinkedIn integration is currently under review by LinkedIn, as soon as this process has been finalized the integration will become available in the platform.	Will be available ASAP.
Room booking	Room booking is currently being finalized by our development team and will become available before the summer holiday.	Will be available in the next patch
